 Cat. No. EAVEGU

The Eave Lite is a recessed downlight ideal for installation in eaves, soffits, entrance ways, verandahs, carports or covered decks. It can also be used in bathrooms, kitchens or where moisture transfer or decibel rating is a minimum requirement.

This luminaire is machined from a choice of solid aluminium with a UV stable powder coated finish, solid copper or 316 stainless steel with a clear, tempered, flush glass lens and high temperature silicon gaskets. The 316 stainless steel Eave Lite is electro-polished to increase corrosion protection.

A GU10 version of this luminaire is also available for line voltage lamps.
