Pagoda Lite

Cat. No. PGL Cat. No. PGL/R Cat. No. PGLG9

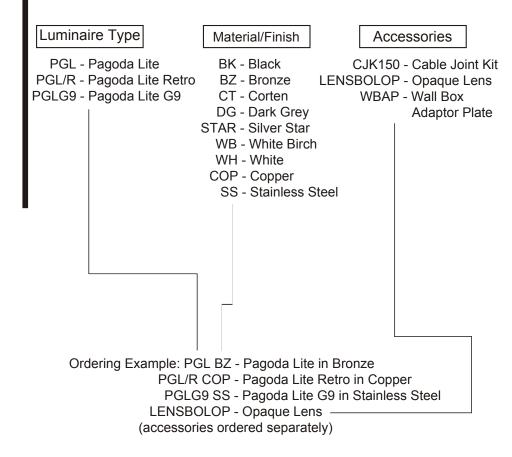

The Pagoda Lite produces a general lighting effect. This luminaire is not for directional lighting. The lens is manufactured from high quality UV stable polycarbonate with stainless anti-glare mesh.

The Retro™ is a 110/240-12 ac mains option suited to an installation where mounting a transformer is a problem, e.g. a brick wall where there is only the cable protruding out of the wall and it is not an option to recess the transformer or when replacing an existing light fitting. The base size increases in size to accommodate the encapsulated IP66 dimmable transformer.

A G9 version of this luminaire is also available for line voltage lamps.
