

# Pole Spot

Cat. No. PS

Cat. No. PSGU

The Pole Spot has a single spotlight which has been designed for uplighting and cross lighting. This luminaire is best suited to illuminate larger bushes and shrubs, as well as architectural features. The fitting has a fully adjustable head which allows for 360 degree rotation, as well as a high degree of elevation.

This luminaire is machined from a choice of 10mm solid aluminium with a UV stable powder coated finish, solid copper or 316 stainless steel with a clear, tempered, flush glass lens and high temperature silicon gaskets.

A GU10 version of this luminaire is also available for line voltage lamps. However, a longer body is needed to accommodate the longer lamp.
